SUMMARY

Full Stack Developer with 1.5+ years of experience building scalable, real-time SaaS systems using NestJS, Node.js, Next.js, PostgreSQL, and MongoDB. Shipped a HIPAA-aligned healthcare platform with 400+ subscriptions and \$5k+ MRR. Experienced in secure authentication, Stripe and PayPal payment integrations, Redis-powered real-time systems, AWS infrastructure, S3 and CloudFront media delivery, and AI applications using OpenAI APIs.

SKILLS

Languages: JavaScript, TypeScript, Python, GO, SQL

Backend: Node.js, NestJS, Express, FastAPI, Django

Frontend: React, Next.js

Databases: PostgreSQL, MongoDB, Redis

Cloud/DevOps: AWS EC2, Docker, Nginx, CI/CD, GitHub Actions

Systems: RBAC, Multi-Tenant, WebSockets, Event-Driven Systems, 2FA, Encryption

Integrations: Stripe, Paypal, Firebase, Google Maps API, Webhooks, OpenAI API, s3, Cloudfront

Developer Tools: Git, GitHub, SSH, Postman, Linux, Bash, Docker

EXPERIENCE

Full Stack Developer, Nessfi Tech Pvt. Ltd.

Aug 2024 – Present

- Built scalable full-stack SaaS applications using NestJS, Express.js, Next.js, PostgreSQL, MySQL, and MongoDB.
- Engineered secure authentication with RBAC, JWT, 2FA, SSO, and subscription-based access control.
- Developed real-time systems using WebSockets, Redis Pub/Sub, Firebase Cloud Messaging, and third-party API integrations.
- Deployed and maintained production applications on AWS and Azure using Nginx, PM2, S3, and CloudFront.
- Collaborated with international clients through requirement gathering, technical calls, Basecamp, and Zendesk to deliver production-ready solutions.
- Mentored junior developers through code reviews, debugging, and backend architecture guidance.

PROJECTS

DAHN – Healthcare Platform (HIPAA-Aligned)

getdahn.com

- Built a HIPAA-aligned healthcare platform with RBAC, AES-256 encryption, 2FA, and secure patient management.
- Engineered Stripe subscription billing with automated renewals, payment retries, and invoice generation.
- Deployed production infrastructure on AWS EC2 using Nginx and PM2.

Signature K9 – Dog Training LMS & Subscription Platform

portal.signaturek9trainingacademy.com

- Built a full-stack LMS using Next.js, NestJS, Prisma, and PostgreSQL with secure JWT authentication.
- Integrated PayPal subscriptions with vaulted payments, recurring billing, 3D Secure, and invoice generation.
- Implemented secure video streaming using AWS S3, CloudFront signed cookies, HLS, and FFmpeg.

Taxificient – Multi-Tenant Ride Management SaaS

backend.taxificient.ai

- Built a multi-tenant taxi dispatch platform using NestJS, PostgreSQL, and Next.js with subscription-based RBAC and end-to-end ride lifecycle management.
- Engineered real-time driver tracking and ride chat using Redis Pub/Sub, WebSockets, Firebase Cloud Messaging, and Google Maps APIs.
- Deployed and maintained production on AWS EC2 using Nginx, PM2, and Redis.

VentSpace AI – AI Companion & Analytics Platform

ai.ventspaceapp.com

- Architected an AI microservice using Express.js, Next.js, Socket.IO, MySQL, and OpenAI APIs for secure, real-time empathetic conversations.
- Implemented JWT-based Single Sign-On (SSO) enabling seamless access from the core admin portal to the AI analytics dashboard.
- Built AI analytics dashboards for conversation and engagement insights, and deployed the service on Azure Virtual Machines using Nginx and PM2.

EDUCATION

MCA, Chandigarh University

2022 – 2024

B.Sc, KDCM Govt. College

2018 – 2021
